

Dear Parents,

It doesn't seem possible, but the middle of March is here. We have completed our MEA testing, except for make-ups. They will be done over the next week. Even though spring is right around the corner, please send your child to school with boots. Our playground is very wet. The students have had a great time on the sleds and snowshoes. We are using the laptops on Mondays. We are working on space reports and the students use a typing program called "Bernies Typing Travels." Monday, March 24th is a Teacher Workshop Day. Thanks for all that you do. Space Dictionaries are due March 27th. Have a great weekend.
