ITV (INTERACTIVE TELEVISION) PHILOSOPHY

The Greater Skowhegan Area ITV site is part of a statewide delivery system for bringing educational programs to the area through the medium of interactive television.

The system was designed to provide responsive, flexible, and accessible educational opportunities for all community members.

The Board believes that growth and development are a basic human right and need.

Goals

- A. To make the community aware of ITV offerings;
- B. To disseminate to the Department of Education and the CCM, the needs of the community;
- C. To provide information and reference services to the community;
- D. To provide access to statewide conferences and seminars;
- E. To continually explore future uses of the technology; and
- F. To provide sufficient staff and facilities to implement the ITV program.
