The Building Committee met on February 24, 2020, with Architect Stephen Blatt and his ten-member team to review the tasks, timeline associated with the planning, design and approval for the anticipated Elementary School Building Project.

The Committee members asked clarifying questions regarding the planning process, site selection design and construction schedule.

The attending Stephen Blatt Team members shared their thoughts on a variety of areas, including the current building assessment study process, site selection considerations, concept development, engineering philosophy, design issues, architect's role, mechanical, electrical, and both interior and exterior design possibilities.

There will be additional opportunities for more discussion as the need arises. All in attendance thought the meeting was very worthwhile.

Steve Blatt thanked the Board for the opportunity to work with MSAD 54 again. The Committee thanked Steve for coming to the meeting and doing the presentation and answering the Committee's questions.

The meeting adjourned at 6:45 pm.
