<tr>
<td><strong>A1 Healthy Behaviors and Personal Health</strong></td>
<td>Students examine the relationship between behaviors and personal health</td>
<td></td>
</tr>
<tr>
<td>a. Explain the importance of assuming responsibility for personal health.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Examine the relationship between healthy and unhealthy behaviors and personal health.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Identify the possible barriers to practicing healthy behaviors.</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>A2 Dimensions of Health</strong></td>
<td>Students explain the interrelationship of physical, mental/intellectual, emotional, and social health.</td>
<td></td>
</tr>
<tr>
<td><strong>A3 Diseases/Other Health Problems</strong></td>
<td>Students identify causes of common adolescent diseases and other health problems and describe ways to reduce, prevent, or treat them.</td>
<td></td>
</tr>
</tbody>
</table>
### A4 Environment and Personal Health
Students determine how environment and other factors impact personal health.

1. Identify what can be done to help improve the environment.
2. Explain how to be a “health advocate” for the environment.
3. Explain how pollution can negatively affect one's health.

### A5 Growth and Development
Students describe specific characteristics of adolescent human growth and development.

1. Describe how hygiene needs are affected by growth and development.

### A6 Basic Health Concepts
Students explain essential health concepts related to family life; nutrition; personal health; safety and injury prevention; and tobacco, alcohol, and other drug use prevention.

1. Demonstrate how to use MyPlate.
2. Identify healthful foods to obtain personal health.
3. Explain how using MyPlate can help with a well-balanced diet.

CSHE pages 596-597
Environmental Mural

Compare the different hygiene needs of adolescents with those of younger students, and stress the importance of regular bathing, daily use of deodorant, brushing teeth, and hand washing.

</tbody>
</table>

**D2 Technology and Health**

Students analyze the influence of technology, including medical technology, on personal and family health.
**D3 Compound Effect of Risk Behavior**

Students describe how some health risk behaviors can influence the likelihood of engaging in unhealthy behaviors.

a. Describe how gateway drugs can lead to the use of other drugs.
b. Describe the influence of alcohol and other drug use on judgment and self-control.

| 1. Define physical and psychological addiction and describe the effects of addiction to various behaviors and substances. |
| 2. State the value and positive benefits of a drug-free lifestyle. |
| 3. Predict what might happen in the next 10 years to someone age 15 who becomes addicted to substances such as alcohol, drugs, or cigarettes or a behavior such as dieting or gambling. |

| Write and sign a contract to stay drug free. |
| Create ways to educate others on drugs and addictions (ie posters, discussions, essays). |
| Interview people with drug dependencies or those who are survivors. |

**Spring 2013**
MLR Content Standard: E. Communication and Advocacy Skills: Students demonstrate the ability to use interpersonal communication and advocacy skills to enhance personal, family, and community health.
