## Launching the test window

1. In the **Safari browser ONLY** enter the following URL [test.mapnwea.org/](http://test.mapnwea.org/)

3. It will most likely be a blank page or error page
4. Click inside the URL Bar hit Enter or Return to refresh the page
5. Now you should see the NWEA browser page, if not give it about a 5 second count and refresh again. Continue to refresh the browser until you see the following page. I have seen this take four refreshes
6. **DO NOT TEST IN THIS WINDOW.**
7. **Minimize, do not close, this window (Click Yellow (-) Button in Upper Left Corner of Window)**

8. **YOU MUST NOW LAUNCH THE SECURE NWEA BROWSER FROM THE DOCK**

9. Enter the Session and Password information that your teacher has provided.
